

“R²: SUPERIOR ROOT DRIVEN RETURN ON INVESTMENT.”

KEY FEATURES

HFG0921 tremendous yield performance across years, widely adapted across environments, and a dominant product recommended for both grain and silage. Very good early vigor with good stress tolerance and exceptional consistent ear development. Food grade.

AGRONOMIC TRAITS

- Seedling Vigor ██████
- Fall Appearance ██████
- Plant Height ██████
- Drought Tolerance ██████
- Ear Height ██████
- TSC Tolerance ██████
- Stalk Rating ██████
- NLB Tolerance ██████
- Root Rating ██████
- Goss Tolerance ██████

KEY CHARACTERISTICS

- RM (Relative Maturity) **92**
- 50% Silk GDUs **1240**
- Black Layer GDUs **2150**
- Test Weight ██████
- Ear Flex ██████
- Population Response ██████
- Silage Quality ██████
